

# AFRIKA KOMMT! 2022-2024

An Initiative of German Industry for Future Leaders from Africa

## Candidate Profile: Scientific Strategy Fellow

<b>Company:</b>	<i>Boehringer Ingelheim International GmbH</i>	
<b>Education:</b>	MD or PhD in Life Sciences with an interest in Strategy or MBA with an undergraduate background in Life Sciences and/or Medicine.	
<b>Professional Experience:</b>	Experience in human life sciences research, life science strategy projects, and/or drug development in a laboratory, clinical or data science setting. Experience with consulting projects (private industry, government, NGO or academia).	
<b>Additional Qualifications:</b>	Strong scientific communication skills (verbal, written and visual), Digitalization and IT project/program management skills	
<b>Division / Department, Place:</b>	Human Pharmaceuticals / Discovery Research Ingelheim, Germany with potential travel to Biberach, Germany.	
<b>Assignment / Area of Activity:</b>	<p>The Scientific Strategy Fellow will work with us to co-create new strategic approaches in the areas of disease research, drug discovery and translational medicine. The fellow will work with both new and established project teams in a multi-national environment with stakeholders in Germany, the USA, Austria and Asia.</p> <p>Specific activities will involve a mix of application of strategic frameworks to research problems, digital project ownership, change management and communications.</p> <p>Lessons learned from home countries in the areas of collaboration, trust building, digital adoptions (for example the introduction of mobile payments ahead of US/EU) will be highly appreciated.</p>	
<b>Remarks:</b>	<p>This profile offers the opportunity for a fellow to have direct impact on how we shape and implement strategies to bring new therapies to patients and use data in new ways.</p> <p>We hope the fellow will also bring new perspectives and thinking to challenge the status quo!</p>	
<b>Preferred Nationality:</b>	Not Applicable.
