Division / Department, Place:	<p>People & Operations - Intelligent Enterprise Solutions - SAP Experience Technology Team Location: Walldorf, Germany</p> <p>We take the "Freedom to experiment" out of our cultural DNA and encourage our colleagues to try out new technologies to deliver the Digital Workplace of tomorrow. The SAP Experience Technology Team let you touch IT and learn, how we run at SAP. Experience SAP as an Intelligent Enterprise in a guided tour in our Digital IES Showroom and onsite in physical IES Showrooms around the world. We create value, deliver useful expertise and shape the future of SAP. #GetThingsDone</p>	
Assignment / Area of Activity:	<p>You will work with the core team for the Digital Workplace Workstream of the Future of Work Program at SAP. Our vision is to inspire people to strive in the hybrid work environment by leading by example. Our mission is to provide guidance for everyone to own their work in a hybrid set up by enabling and empowering all SAP colleagues with tools and solutions that fit their individual needs. With having sustainability, diversity and accessibility always in mind,</p>	

	<p>we are following a holistic view and connect all future of work assets by showcasing new technologies and their added value. The Experience Technology Team makes these technologies experienceable and tangible by integrating them into the IES showrooms and other products. The team exhibits these at front runner and flagship locations and – along our credo SAP runs SAP - positions SAP to employees, new talents, customers and partners as leading company of working in “the new normal”</p>
Remarks:	<p>The Intelligent Enterprise Solutions (IES) unit provides advanced solutions, technology and operational support to our internal clients, our employees. Supporting more than 100,000 employees and thousands of SAP systems, it is responsible for SAP's worldwide internal business applications and IT infrastructure.</p> <p>Within IES, Technology Services and its Experience Technology team are responsible for major technology topics across SAP. We research and try new technology but also deliver ready-to-use solutions; we enable our customers inside at outside of SAP to get the most out of our latest digital innovations with expertise, best practices, and governance.</p> <p>Through initiatives such as “SAP runs SAP” and the Global IES Showroom, the Experience Technology team creates exciting new showcases on how SAP implements and runs digital transformation using its own solutions. From on-site events worldwide to latest virtual applications available anytime, from well-researched storyboards to beautiful media assets and apps: We do the best to support our organization with making the Intelligent Enterprise an experience.</p>
Preferred Nationality:	South Africa, Kenya, Nigeria
