Division / Location / Department:	People & Operations - Intelligent Enterprise Solutions - SAP Experience Technology Team Location: Walldorf, Germany
Planned Tasks & Activities:	• You will do conceptual work with a strong sense for objective prioritization, business outcome and execution • You will prepare and provide clear and concise presentations • You will have to quickly understand a technical topic and present it in a comprehensive and compelling way • You will build-up and maintain a network across involved roles on operational level to support collaboration & execution Within Experience Technology we make the innovations and technology SAP is developing tangible for every SAP employee, customer, partner and enthusiast. By infusing different platforms with our assets, we invite everybody to look behind the curtains and experience how SAP runs. We take the "Freedom to experiment" out of our cultural DNA, combine it with advanced storytelling techniques, and encourage our colleagues and customers to experience How We Run at SAP. We craft authentic stories on how we implement our own products and enable all our colleagues to tell these. Infusing the stories in different platforms and experiences we let the audience look behind the curtains of SAP. #HowWeRun #SAPrunsSAP
Remarks:	The Intelligent Enterprise Solutions (IES) unit is the internal IT of SAP and the backbone for its digital transformation. It provides advanced solutions, technology and operational support to our internal clients, our employees. Supporting more than 100,000 employees and thousands of SAP systems, it is responsible for SAP's worldwide internal business applications and IT infrastructure. Within IES, Technology Services and its Experience Technology team is responsible for the most important brand in the company: SAP runs SAP. We research and try new technology but also deliver ready-to-use solutions; we enable our customers inside at outside of SAP to get the most out of our latest digital innovations with expertise, best practices, and governance. Through initiatives such as "SAP runs SAP" and the Global IES Showroom, the Experience Technology team creates exciting new showcases on how SAP implements and runs digital transformation using its own solutions. From on-site events worldwide to latest virtual applications available anytime, from well-researched and authentic stories to compelling media assets and apps: We do the best to support our organization with making the Intelligent Enterprise an experience.
