By infusing different platforms with our assets, we invite everybody to look behind the curtains and experience how SAP runs through compelling and insightful stories, demonstrations, and experiences</p>
<p><b>Remarks:</b></p>	<p>The Corporate Process &amp; Information Technology (CPIT) unit is the internal IT of SAP and the backbone for its digital transformation. It provides advanced solutions, technology and operational support to our internal clients, our employees. Supporting more than 100,000 employees and thousands of SAP systems, we are responsible for SAP's worldwide internal business applications and IT infrastructure.</p> <p>Within CPIT, Technology Services and Experience Technology, the team is responsible for the most important brand in the company: SAP runs SAP. We research and try new technology but also deliver ready-to-use solutions; we enable our customers inside and outside of SAP to get the most out of our latest digital innovations with expertise, best practices, and governance. Through initiatives such as "SAP runs SAP" and the SAP Discovery Showroom, the Discover SAP team creates exciting new showcases on how SAP implements and runs digital transformation using its own solutions with on-site events, virtual applications, authentic stories and compelling media assets and apps. We pull back the curtain at SAP, allowing customers to see the real-world effect of innovation in action and sharing SAP's core characteristics and values: innovation, transformation, culture, leadership, and social commitments.</p> <p>Discover SAP showcases more than products and benefits. It demonstrates the way that these products can be used to unleash genius and innovation.</p>
